Subject: Hickmans / CEMEX Air Permits

Eugene,

Per our discussion I've attached the following documents (permits and TSD are those that are currently issued, :

- [040136 Permit and TSD for Hickmans Egg Ranch – Arlington #040136](#)
- [140062 Permit and TSD for Hickmans Egg Ranch – Tonopah #](#)
- [970350 Permit and TSD for CEMEX #970350](#)

Regarding the VOC issue ... we've received the same comments as you have as part of our public notice process regarding a modification to Permit #040136 and are working on responding to them. Our response to this issue will likely mirror the approach taken by Indiana in the attached non-rule policy document (note: the commenters cite a study performed in Indiana as the source of the VOC data in their letter, so it's important to point out that even the agency in

which the study was performed does not regulate those emissions).

Finally – here’s a link to the ADEQ Agricultural Best Management Practices (particulate emissions only): <http://www.azdeq.gov/environ/air/plan/download/webguide.pdf>

The Air Quality Department strives to provide excellent customer service to residents of Maricopa County.

How are we doing? [Send us your feedback.](#)
